SEARCHING THE AGE OF YOUR HOME

Things you need to know to search our records for the age of your home.

- Owners name and what year they purchased
- Lot and acreage
- Township

When trying to determine when a house was built, look at the following:

- 1874 Atlas to see if a house is there and who the owner is at that time.
- 1856 map on the wall in Recorder's office to see if a house is there.
- Search the Deeds. When there is an increase in the sale price, this could be a clue to start your search in that time frame.
- Once you have an owner and a time frame you can start your search on the Auditor's tax rolls. Look for a jump in value for the property and sometimes they will write "house added" on the tax roll.
